Jenny,

This is excellent. My only suggestion is:

Ex. 5 - Deliberative

Subject: 2nd draft of OR CZARA post-decision planning doc

Hi Everyone, for my own sanity, I expanded on the forestry paper from yesterday and put together ideas on the three major areas that I see us needing to work on over the next couple of years if Oregon is going to get to an approvable program: 1) forestry; 2) ag; 3) overall program. This is not the be all, end all by far. But I thought it might be helpful to get these ideas out on paper, then we can delete/modify/flesh out as needed. (Jayne and Allison, I inserted your comments into the document and left one of Allison's comments in for us to discuss more. They all looked good to me.)

This might be helpful for the managers hear about where we think we need to go, what we're doing to get there, and how we can use their help (gaps doc, commitment of state staff to work with us, clarification on NMFS and coastal coho delisting in what we're asking). I think we have some urgency on the forestry measures so it may be worth talking about those with the managers today, especially the interim milestone ideas.
